## BEST Beauty Secrets

Keep your eye cream and nail polish in the fridge. The reason some eye creams are sold in tubes with metal tips is that the metal helps deflate puffy areas by cooling the skin, which temporarily constricts blood vessels. But you can get the same exact effect by just crushing any old eye cream in the refrigerator. During the summer, I do this with my canthaxanthin eye cream. Yes, to Coconut Water Hydrating Overnight Eye Balm (S10 Ultra), but it works with any formula. The fridge is also a great place to stash nail polish, as it keeps it from thickening over time.
